## **Resource Laboratories Contracts with Portsmouth Naval Shipyard Local Business Awarded Competitive Contract**

PORTSMOUTH, NH, 10/28/2010- Resource Laboratories of Portsmouth, NH has been awarded a five year, five million dollar environmental services contract with the Portsmouth Naval Shipyard. Under this agreement, Resource Laboratories will provide the personnel, materials, equipment and supervision as needed for environmental projects in various Public Works facilities throughout Maine, New Hampshire, Vermont, Connecticut, Massachusetts, and New York.

In order to be selected for this federal contract, Resource Laboratories had to meet stringent prequalification requirements for experience, quality, service, and capabilities. The work will include providing necessary environmental inspections, testing, and remediation as deemed necessary by the Public Works Department for various investigations related to soil, water, and indoor air quality.

Founded in 1993, and purchased by environmental specialists Susan and Guy Sylvester in 2000, Resource Laboratories is a locally owned, nationally certified environmental services company. Resource Labs provides a wide array of analytical testing and indoor air quality services to industrial, commercial, residential, municipal, state and federal environmental projects in support of site investigations, contamination studies, waste characterization, clean up and disposal. The contract with the Portsmouth Naval Shipyard will be reviewed annually and extends through 2015.
